

Pet Therapy & Photo Release

(2026 – 2027)

Student Name

Birthdate

Pet Therapy Release

The Walsh Academy utilizes Pet Therapy as a routine method of supporting and enhancing the academic and therapeutic learning environment. Students are exposed to a variety of animals within their individual classrooms and throughout the school and school related facilities. Students may encounter animals including, but not limited to, dogs, fish, hamsters, guinea pigs and turtles. I, as parent/guardian of the above identified student, (mark choice below):

☐ DO

☐ DO NOT

I authorize my student to participate in Pet Therapy at the Walsh Academy. I understand that in order to participate in Pet Therapy, my student must meet set criteria. I understand that Walsh Academy is not liable for any injury and/or allergic reaction incurred during any Pet Therapy participation.

Please list below any known Animal Allergies for your student:

Photo Release

The Walsh Academy faculty, students and facilities may be photographed and illustrated in, but not limited to, photographic displays, newspapers, Walsh Academy's and/or Maryville's social media sites, Walsh Academy's and/or Maryville's website, videotape displays or projects, student publications, and/or student projects. I, as parent/guardian of the above identified student (mark choice below):

☐ DO

☐ DO NOT

I authorize my student's image to appear in any/all of the aforementioned. I understand that Walsh Academy is not liable for any/all circumstances or events as a result of my student's image being used in any/all of the aforementioned.
